**Description**

3D Group was retained by the investors to help help with pre-construction services including helping to develop a scope of work to retain design engineers, pre bid budgeting, & design construction.

3DG helped design the building in parallel to completing the drawings in order to complete the project in the allotted time.

**Project Features**

- Lofted office ceiling
- Exterior consisted of metal panels, EIFS & stone
- Wet & dry fire suppression system
- Wall packs for HVAC to save cost & ductwork
- Complete security system with gates and keypads
